**Mary Hallock Foote: Author-Illustrator of the American West  
(Oklahoma Western Biographies)**

I read this book a couple years ago and towards the ending of this book It get graphic and I had to put down but I ended up liking it at the end. Campbell, Cohen, and Meyersfor example, found that mothers who were depressed 2 months postpartum but whose depression remitted by 6 months were significantly more positive and more competent in feeding their infants relative to mothers whose depression was chronic through 6 months

postpartum Campbell, Cohn, and Meyers, Furthermore, the infants in the depression remission group were significantly more positive in face-to-face interactions with their mothers than were those whose mothers remained depressed, although they did not differ significantly in terms of negative interaction or in the quality of engagement with their mothers in toy play.
